

## Plant Sanitation Affidavit

This document is to be completed when uncertified custom facilities are used to process grain or other produce in an organic operation. Examples – custom seed cleaning (stationary or mobile), seed drying, etc. The organic operation must ensure that commingling of organic and non-organic produce and contact with unpermitted substances does not occur during use. Uncertified facilities should only be used when certified alternatives are not available. **Seed cleaned in a non-organic facility may not be resold as “Certified Organic”, however may still be used as organically grown seed on the farm.**

Seed Processing Facility

Type of Custom Operation

I \_\_\_\_\_, being the operator of the seed processing facility described above  
(Print Name)

contracted by \_\_\_\_\_ to \_\_\_\_\_  
(Certified Producer) (Reg. #) (Process)

\_\_\_\_\_ on the \_\_\_\_\_'th day of \_\_\_\_\_  
(Organic Produce) (Day) (Month)

20 \_\_\_\_\_ hereby confirm that:  
(Year)

1. the facility was previously used for the processing of:

2. \_\_\_\_\_
